

# The Holo-Dontic™ Experience

**Our unique Holo-Dontic™ Experience was designed to help you obtain and sustain optimal health of your entire body.**

How can we do this through dental care?

The mouth is a unique window into viewing the health of the body's organs and systems. Through the knowledge of this relationship between oral and bodily health, we have created a process which empowers your body to reclaim its innate ability to heal itself.

**Let us take you through our unique experience.**

## Holo-Dontic™

The process by which the overall wellbeing of the person is reflected and influenced by their oral health.

# The Holo-Dontic™ Experience

## Step 1: Explore

The first step of our process involves gathering more information about your oral and bodily health.

## Step 2: Assess

Next we will assess your oral health and provide opportunities to evaluate the stress of your body's organs and systems.

## Step 3: Inspire

Our team will review the results of your oral and body health assessments, and lay out a very clear wellness map that will inspire and support you to accomplish your health goals.

## Step 4: Implement

In the following sessions, we will implement our customized Holo-Dontic™ wellness map and administer the appropriate wellness-oriented solutions to help you achieve optimal health.

## Step 5: Celebrate

As we progress through your Holo-Dontic™ wellness map, we'll measure our progress together, take steps that continue to meet your health goals, and celebrate your accomplishments along the way.

## Step 6: Empower

At the conclusion of your Holo-Dontic™ wellness map, we will once again measure progress, make certain that we have met your health goals, and empower you to sustain your progress.

**Your Optimal Health Begins with Your Oral Health**

We knew there had to be a better way... so we created one!™
